THE GREEN HORNET

Lobdell & Marques Make Green Hornet Buzzworthy

Ten years ago, Dynamite Entertainment first landed the rights to chronicle new adventures of the Green Hornet in comics form. This July, *Scott Lobdell & Anthony Marques* are commemorating that anniversary with the most offbeat Green Hornet series yet.

The Green Hornet #1 begins when an alien infant crashes on Earth. Soon the Green Hornet and Kato find themselves facing ominous adversaries who want this infant, dead or alive. It's up to the heroic duo to confront a series of dark and deadly enemies in order to save the child.

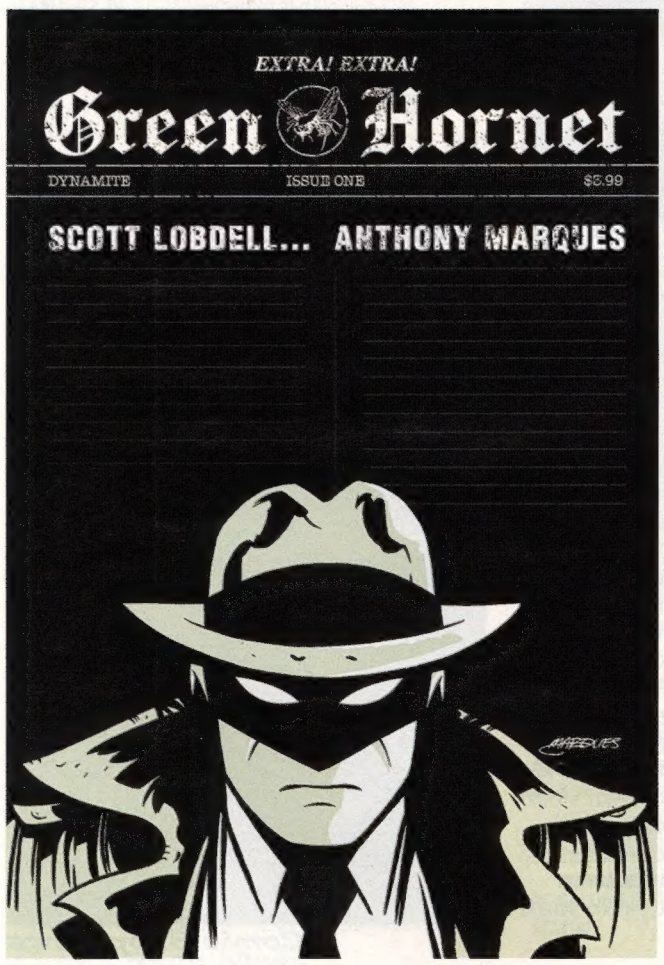
Hmmm... an alien infant crashes to Earth. Why does this sound familiar? Are Lobdell and Marques having some fun with a certain superhero mythology here? "Absolutely! But it is much more than that," Lobdell said. "The Green Hornet, while created in the 1930s, has always had a timeless quality. Writers can set a story back then or in modern day without worrying we're writing the stories about a 90-year-old man and his 80-year-old sidekick. You can tell a story with Green Hornet on a rotary phone or Kato using thermal imaging technology woven into his mask so he can target opponents' weak spots in battle. If you are feeling ambitious you can put both elements in the same story! How fun is Green Hornet?

"When Anthony and I decided to tell a story and set it in a superhero-adjacent environment, we thought it should revolve around the 'first super hero.' (If I remember correctly, everyone's favorite undocumented Kryptonian came to Earth in the wake of Green Hornet's putting on his fedora for the first time!)

"The more I thought about it and the way you can tell a story and set it anywhere, I got to thinking, 'What if a baby fell to Earth... and it wasn't as simple as an elderly couple passing by and adopting him in the middle of the night? What if the baby's falling to Earth caused all kinds of commotion and set into motion a bunch of conflicting interests, and Britt and Kato found themselves smack in the middle of it all?' This way, as we the readers are exploring new elements of a Green Hornet Universe, so too are the characters.

"Because you know all the staples of alien-baby-who-fell-to-Earth, it allows us to play around in that playground and offer you new experiences with Britt and Kato at the center."

How do the Green Hornet and Kato become involved in this? "Britt spends a lot of time as Green Hornet and less so as publisher of his newspaper," Lobdell said. "When one of his prize reporters goes missing while on what should have been a routine assignment, he is at last in his comfort zone—blending his two lives into one. While it is Britt that investigates, it is Green Hornet and Kato who wind up in the thick of things."



Who are these enemies targeting the child—and why are they doing so? "When Anthony and I first started talking about this series, we thought about that one big villain that Green Hornet squares off against. His Moriarty. His Joker. No one came to mind. It seemed to me at least that most of the bad guys were much like all the other adversaries he faced," Lobdell explained.

"They say a hero is only as interesting as the villain he faces (Hello, Hans Gruber!)—and so we set to work on the idea we would use the mini to create a rogues gallery for the Green Hornet universe. We would leave toys on the table that future Green Hornet creative teams could use or not.

"I don't really want to get into the villains because I want the readers to enjoy them in real time—but I will say there are a few staples (the mad scientist, the cerebral villain, the threat from outer space...) but that each of them comes with a new twist."

Lobdell set out to make his series more than a straight-ahead pulp adventure. "One of the most fun parts of Green Hornet is the way the character lends itself to any kind of story," Lobdell said. "Noir. Superhero. Action-Adventure. Buddy Comedy. Sci-Fi. Urban Horror. We're doing a series that combines all those elements into one epic saga. I think a lot of people are going to put these books down and say, 'Damn, they got a lot of story into this issue!'

"There is some humor in the story—coming from the unique relationship between Britt and Kato—but not much more than you'd get out of any story where two close friends dress up and fight crime.

"Why break with the tone of prior Green Hornets? I'd say, 'Why not?' You've read all those stories, presumably, why not something new?

"I'll say this: Green Hornet has been around longer than, I think, even Batman. When I was younger the only Batman we had was *Adam West* Batman. Kinda campy—but I loved it and still do 'til this day. Today's audience has *Michael Keaton* Batman and *Kevin Conroy* Batman and gravelly-voiced *Christian Bale* Batman and *Ben Affleck* Batman and soon-to-be *Robert Pattinson* Batman. They have ***Dark Knight*** Batman and ***Batman Beyond*** Batman and ***Gotham by Gaslight*** Batman and whatever *Grant Morrison* does whenever he touches Batman and *Darwyn Cooke* Batman and *Neal Adams* Batman and the aforementioned *Adam West* Batman.

"So many different flavors of Batman. So much seasoning. With that in mind, I'd like to think Green Hornet can survive a few issues of fun by *Scott Lobdell & Anthony Marques*!"

The new series is illustrated by *Anthony Marques*, who first worked with Lobdell almost a decade ago on ***Red Hood and the Outlaws.*** Since then, Marques has worked with his collaborators across multiple publishers including Dynamite as an editor. Today he is additionally the proprietor of the famous Kubert School.

"The world is going to change for the Green Hornet and Kato in a huge way!" Marques said. "Scott has crafted a Green Hornet story unlike any other, and I'm so excited to be the one who gets to draw it! Everyone is putting in the work to deliver not only the best ***Green Hornet*** series, but the best comic series available today!" To give the book a distinctive look, Marques is also coloring the series using a stylish, minimalist palette of black, white, and green.

"I have been asked multiple times to stop yelling through a megaphone about how much fun this book is going to be," editor *Kevin Ketner* added. "The megaphone was finally confiscated, but the fun still remains. If you want to have a good time and have a few laughs while the Green Hornet and Kato do some damage to criminals, mad scientists, pan-dimensional genetic experiments gone awry and visitors from a strange and hostile planet, I highly recommend you get on board!"

"The Green Hornet is one of the first heroes that built the foundation of the comics industry, and we've been proudly publishing his adventures for 10 years now," Dynamite Publisher *Nick Barrucci* said. "I couldn't be happier with this new book, which is put together by a group of true comic pros with years of collective experience and strong relationships with each other and Dynamite! This is a great way to celebrate the Hornet's 10th anniversary at Dynamite!"

The Green Hornet #1 is scheduled for July 15th release. The book will be offered with covers by *Anthony Marques, Lee Weeks, Dave Johnson, Mike McKone, Leonardo Romero,* and *Walter Geovani.*
